WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

## IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions
Altered vision

Eye or muscle twitching Involuntary movements Loss of awareness Disorientation

To reduce the likelihood of a seizure when playing video games:

- 1. Sit or stand as far from the screen as possible.
- 2. Play video games on the smallest available television screen.
- 3. Do not play if you are tired or need sleep.
- 4. Play in a well-lit room.
- 5. Take a 10 to 15 minute break every hour.

### **WARNING - Repetitive Motion Injuries**

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- · Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

### **WARNING - Battery Leakage**

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

#### To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the
  correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

### THE DEADLY ALLIANCE

With the aid of the thunder god known as Raiden, Earth's mightiest heroes have repelled all invasions from other-worldly forces through a tournament known as Mortal Kombat.

Although there has been relative peace for many years, a new threat to Earthrealm has emerged. And this time, the threat of evil has two faces.

In an attempt to seize control of the realms, the sorcerers Shang Tsung and Quan Chi have joined forces and are preparing to revive the lost army of the mythological Dragon King.

Should they succeed, they will be unstoppable.

Once again, Earth's heroes must venture to

Outworld and kombat the forces of evil. They

must act now. They must stop this Deadly Alliance.

### MAIN MENU

#### ARCADE

Take on CPU controlled opponents. You'll go to the Fighter Selection Screen (see FIGHTER SELECTION, pg. 13). As you play Arcade Mode, you'll earn Koins for victories versus a huge variety of Mortal Kombat fighters. Obviously, you'll want to win as many matches as possible to collect these koins and purchase items in the Krypt (see pg. 10).

#### SURVIVAL

Select a fighter at the Fighter Selection Screen, then try to defeat as many opponents as you can. When you lose a match, your Survival game will end.

### LINKING UP

#### LINKING UP

Up to two Game Boy® Advance systems can be linked using the Game Boy® Advance Game Link® Cable. If necessary, review your Game Boy® Advance Game Link® Cable instruction manual for set-up information. Once connected, two players will have access at the Fighter Selection Screen (see pg. 13).

NOTE: Both players must have a Mortal Kombat: Deadly Alliance Game Pak to play in Link Mode.

Game play options like the ROUND TIME and the ROUNDS TO WIN are taken from Player I's Game Boy Advance settings (see OPTIONS, pg. II). If either player has unlocked hidden characters or alternate palettes, they may be used in a link mode match. You'll select a fighter just as you do in Arcade Mode (see FIGHTER SELECTION, pg. 13).

#### BETTING IN LINK MODE

If both linked players have a profile loaded (see PLAYER PROFILE, pg. 12), a betting screen will appear after both players have selected their fighters. Both players can raise or lower the bet by pressing the Control Pad Up or Down. To lock the bet, both players must

B

### LINKING / BETTING

BETTING IN LINK MODE (CONT).

press the A Button, and the match will begin. If a player presses the B Button, the bet will be unlocked, and both players will be able to adjust the bet again.

The maximum bet is equal to the lower of the two players' Koins. For instance, if Player 1 has 13,200 Koins and Player

The winner of the match will receive the amount bet, and the loser of the match will lose that amount. If the match is interrupted or quit, the bet will be nullified, and neither player will win or lose koins.

REMEMBER: The Betting option will not be displayed unless both players have player profiles loaded.

### THE KRYPT

#### THE KRYPT

The Krypt is an enormous room filled with many koffins. Using the koins you've earned, you can "purchase" koffins to open and reveal the hidden content. Sometimes you'll discover big items like new characters or backgrounds to fight in, and other times you'll find something small.

You can only win and spend koins if you have a profile loaded. Win Koins by playing Arcade Mode, Survival Mode, Mini Games (Test Your Might or Test Your Sight) or by betting in Link Mode. The higher the difficulty level, the more koins you'll win. In Arcade Mode and Survival Mode, you can get bonus koins for performing Flawless Victories.

There are a few koffins in the Krypt that display "???" instead of a price. These items cannot be purchased with Koins and must be unlocked another way! You can view all of the secrets you've unlocked with any profile by going to the Load Profile screen (see CREATE PLAYER PROFILE, pg. 12). If a Special Mode is unlocked, go to the Advanced Options screen and highlight the now-available "Select Mode" option. Press the A BUTTON or press the Control Pad Left or Right to select the mode (or turn special modes off).

### OPTIONS

Press the Control Pad Up or Down to highlight an option, then press Left or RIGHT to

make adjustments to SFX and Music Volumes and screen BRIGHTNESS. To restore these options to their default setting, press the L Button and R Button simultaneously. Press the A BUTTON to select ADVANCED for more available game options.

### IN THE ARENA

#### Round Timer

#### ROUND TIMER

By default, each round has a ROUND TIMER. If the time is up before either kombatant has been defeated, the warrior with fewer injuries is declared the victor. The winner takes the match and moves on to the next opponent.

Victory Skull

Combo Meter

#### VICTORY SKULLS

Each time a fighter wins a round, a VICTORY SKULL is earned. The first fighter to earn two (in the default setting) wins the fight and is declared the victor.

#### COMBO METER

To advance your fighting skills to the highest level, you must learn how to do Combination Attacks. When a combo is executed, the COMBO METER briefly appears to display the amount of damage that has been done to an opponent. The more complex the combination, the more damage is done.

14

### IN THE ARENA

#### HEALTH BARS

In all Mortal Kombat battles, HEALTH BARS in the upper portion of the screen measure each warrior's diminishing health. The meters begin each round reflecting health at 100%, but the amount of health is reduced with each blow taken. The reduction amount depends on the type of contact and whether or not it was blocked. When a Warrior's Health Meter is depleted, he/she is knocked out and the round goes to the opponent.

Fighting Styles

#### FIGHTING STYLES

Mortal Kombat: Deadly Alliance includes two FIGHTING STYLES per fighter. Press the L Button during any fight to toggle between them. If you often change your fighting style to confuse your opponent, you may lose track, so take a quick look at the bottom of the screen to see which fighting style you're using.

## IN THE ARENA

#### LEVEL ADVANCE

In one player Arcade mode, the Level Advance screen will appear between matches (as long as you've won the match). It displays your next opponent, the fight environment and the amount of koins the fight is worth. As you defeat fighters, a skull will take the place of their face at the top of the screen.

#### MINI GAMES

Mini Games appear occasionally for a change of pace. While playing Mini Games, follow on-screen and audio and visual instructions to play the game.

You'll test your concentration with "Test your Sight". Only one of the goblets is not poisoned. Keep your eye on that goblet as they are shuffled. To choose the non-poisoned goblet, press the Control Pad Left or Right to highlight and press the A Button to choose.

To test your fight strength in the "Test Your Might" mini game, you'll need to complete the objective before the timer runs out. Alternately press the L Button and R Button really fast to build up the Fighter Strength Meter, then press the A button to break the object.
